

# PASSWORDS ARE LIKE DIAMONDS

Keep them secured in a safe place.

Use a password vault/manager that supports multi-factor authentication.

# PASSWORDS ARE LIKE SNOWFLAKES

They should be unique.

Don't use the same password for both work and personal accounts.

# PASSWORDS ARE LIKE WEEKENDS

The longer the better.

Make passwords complex so they're not easily guessed.

# PASSWORDS ARE LIKE GERMS

Don't share them with your friends.

Don't spread your passwords around. Keep them to yourself.
